Customers are saying...

“Claris Companion is amazing. It is easy-to-use and very effective. My sister and I both felt so much more at ease getting text message alerts when our father had taken his medication. It also allowed us to communicate with him socially rather than just as caregivers. This device is brilliantly conceived and designed, and it can really help provide more peace of mind to family members concerned about elderly loved ones.”

Mark Ainley

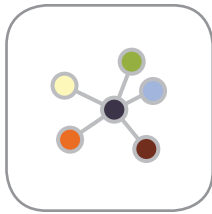

Offering simple, all-inclusive pricing plans.

Try it for 30-days. No-risk money back guarantee.
